To Speak or Not to Speak : Lightning Talks 101

Thanks to the Sponsors And Facilitators

Hello!

I am Nerando

I am a former freeCodeCamp organizer and Jnr Vue Developer @ Hygiena .

Find me at @*Nerajno*

Why ?

- We need more speakers from different backgrounds.
- We would like to create a better environment for new speakers.
- This a basic guide to get into speaking and grow your career.

Benefits to 1st Time Speaker

- Demonstrated Competence
- New Career Opportunities
- Self Advocacy
- Networking Opportunities

What is It ?

A **lightning talk** is a ***short, concise presentation*** lasting only a few minutes, typically ranging from ***5 to 10 minutes.*** These talks are designed to be quick and engaging, allowing speakers to ***deliver key points,*** ideas, or information without delving into extensive detail.

Lightning Talk Structure

Intro

- *Point 1 => { Main Idea and Example/ Application}*
- *Point 2 => { Main Idea and Example/ Application}*
- *Point 3 ... 5 => { Main Idea and Example/ Application}*

Summary

How to Deliver it Well ?

- Structure it well *[ask for help if needed]*.
- Practice your delivery.
- Go for it.

We Need Speakers

- 🎯 Yes ...You
- 🎯 You have a topic you want to speak on, we can help.

Thanks!

Any questions?
